The screenshot shows the KnowledgeGy website interface for a course titled "Super Map Introduction". The page includes a navigation bar with the KnowledgeGy logo, a search bar, and links for "COURSES" and "BLOG". The user profile "AMANY" is visible in the top right. The course title "Super Map Introduction" is prominently displayed, along with a subtitle "How to use super map App in three minutes". Below the title, there are five empty star icons and "(0 REVIEWS)", and a "STUDENTS" icon. The instructor's name "AMANY" is shown with a profile picture. A dark navigation menu contains links for "HOME", "MEMBERS", "GROUP", "EVENTS", "NEWS", "DRIVE", "ADMIN", and "EDIT COURSE". The main content area has a placeholder "Enter full description of the course." and a section for "COURSE CURRICULUM". On the right, a white box features the "Super Map" logo, the word "FREE", an orange "START COURSE" button, and "UNLIMITED ACCESS" with a refresh icon.

I recommend if the course created by me don't show these option to start course
